## Accessories

### Clips MOSO®

With these fasteners MOSO® Bamboo N-durance® Decking can be easily installed. When installed correctly there will be 5-6 mm gaps between the boards. The fasteners are supplied with matching stainless steel screws (square bit). For installation on aluminium sub frame joist (not provided by MOSO®), special screws are available.

### MOSO® Bamboo N-durance® additional products

The MOSO® Bamboo N-durance® additional products are made of the same material as the decking boards: Outdoor-Density® bamboo. The fascia board and edge profile are intended for an elegant finish of the sides of the decking. Fascia boards are installed vertically against the sides of the deck to cover the sub frame joists. Edge profiles can also be used to create stairs.

### Cleaning & maintenance products

Under the influence of wind, rain, sun and snow the decking will weather. MOSO® recommends to maintain MOSO® Bamboo N-durance® Decking with Sikkens maintenance products, depending on the product installed. The silicon carbide broom and machine disk are perfectly suited to clean and smooth the decking surface of Bamboo N-durance® and to remove splinters due to the capability to sand the surface in addition to cleaning it.
